EXPERIENCE

Student Developer (part-time) *Campus Placement Cell* Jan 2025 - Jun 2025

- Built a Flask + PostgreSQL portal used by 1,200 students to register for placement drives
- Cut report generation time from 40 minutes to 3 minutes by moving Excel exports to SQL queries
- Wrote unit tests with Pytest for the eligibility rules engine

PROJECTS

QueueLess | *Python, FastAPI, Redis, Docker* github.com/aanya-rao-example/queueless

- Built a FastAPI service that issues virtual tokens for canteen queues, with Redis for live queue state
- Containerized the API and Redis with Docker Compose for one-command local setup
- Handled 300 concurrent users in a load test with Locust after adding connection pooling

StudySync | *React, Node.js, MongoDB* github.com/aanya-rao-example/studysync

- Based on React + Node.js app where study groups share notes and schedule sessions
- Designed MongoDB schemas for groups, notes and invites with role-based access
- Added real-time updates with WebSockets so new notes appear instantly

ACHIEVEMENTS & CERTIFICATIONS

- Organized a 3-day Git and open-source workshop for 80 juniors
- Top 10 of 240 teams at Smart India Hackathon internal round 2024
- Solved 350+ problems on LeetCode
